IT-014-02-01:	Pharmacy Concept Terminology
IT-014-04:	System and Data Security, Integrity and Privacy
IT-014-06:	Messaging and Communication
IT-014-06-03:	HL7 Messages
IT-014-06-04:	Prescription Messages
IT-014-06-05:	Pathology Messages
IT-014-06-06:	Collaborative Care Communications
IT-014-06-07:	Telehealth
IT-014-06-08:	Electronic Communications In Health
IT-014-09:	Electronic Health Records and Harmonisation
IT-014-09-02:	Electronic Health Records
IT-014-09-03:	Person Identification and Linkage
IT-014-10:	Electronic Commerce
IT-014-11:	Financial Messages

### ISO's Health Informatics Committees

TC215:	Health Informatics
WG1:	Data Structures
WG2:	Data Interchange
WG3:	Semantic Content
WG4:	Security
WG5:	Health Cards
WG6:	Pharmacy and Medicines Business
WG7:	Devices
WG8:	Business Requirements for Electronic Health Records

ALL THE SOFTWARE  
WILL HAVE AT  
LEAST 2 NAMES &  
ADDRESSES

- 1) THE PATIENT
- 2) THEIR DOCTOR OR
- 3) THE HOSPITAL OR
- 4) CARE CENTRE OR
- 5) THE PLACE WHERE  
THEY WERE TREATED  
AND BY WHOM

THEN YOU HAVE THE  
NAMES AND ADDRESSES  
OF ALL THE HEALTH  
SERVICE PROVIDERS

HENCE THE IMPORTANCE  
OF A STANDARD 'NAME  
& ADDRESS' FORMAT
